

It was my pleasure to be Terry Tomlinson's Recruiter from 2005-2008; placing her with multiple clients as a production artist. Every client had positive comments about Terry - about her pleasant personality, willingness to please, and her being a productive team member.

Terry was sent to Save A Lot Stores for a 3 days assignment which she turned into a 3 month assignment by advising the client of all of her skills - not only in InDesign, but also her packaging experience in Illustrator and Photoshop. This enabled her to provide services for two different departments for the same client.

Wellpoint Health Care repeatedly requested Terry back for her consistency and attention to detail. I would be happy recommend Terry for any assignment - please feel free to contact me at cfranklin@sbscreatix.com for more information. (Cynthia Franklin)
